Flange Diameter:

14.220 millimeters

Flange Thickness:

1.520 millimeters

Length:

6.350 millimeters

Second Flange Thickness:

1.520 millimeters

Features Provided:

Individually keyed

Special Features:

Holes 2.360 mm on first flange

Material:

Steel

Surface Treatment:

Cadmium and chromate

Surface Treatment Specification:

Qq-p-416, type 2, class 2 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03100
