Cross Sectional Shape:

Rectangular

Inside Diameter:

Between 0.151 inches and 0.156 inches

Casehardening Indicator:

Not casehardened

Major Thickness:

0.032 inches

Ring Style:

C

Usage Design:

External

Material:

Steel, ams 5077

Material:

Steel comp 1025

Material Specification:

Ams 5077 assn standard single material response

Surface Treatment:

Nickel

Surface Treatment:

Black nickel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T252-g
