Cross Sectional Shape:

Rectangular

Inside Diameter:

0.051 inches

Casehardening Indicator:

Not casehardened

Major Thickness:

0.020 inches

Ring Style:

E

Usage Design:

External

Material:

Steel, ams 5520

Material:

Steel comp 632

Material Specification:

Ams 5520 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
