Receptacle Height:

Between 0.435 inches and 0.465 inches

Mounting Facility Thread Size And Series/type Designator:

0.375-24 unjf

Special Features:

Heat treat to t-6 cond; dry film lube threads per mil-l-8937

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2, class 1, dichromate sealed military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A05400

Mil-std (military Standard):

Mil-a-8625 spec.
