Cross Sectional Shape:

Rectangular

Inside Diameter:

1.250 inches

Casehardening Indicator:

Casehardened

Outside Diameter:

1.562 inches

Major Thickness:

Between 0.060 inches and 0.064 inches

End Style:

Vertex outside periphery

Ring Style:

Straight gap

End Application:

Truck, 5 ton, diesel, k908

Usage Design:

External

Material:

Steel, sae 1065

Material:

Steel comp 1065

Material Specification:

Sae 1065 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
