Cross Sectional Shape:

Rectangular

Inside Diameter:

0.168 inches

Casehardening Indicator:

Not casehardened

Major Thickness:

0.015 inches

Ring Style:

External bowed

End Application:

6220-00-883-9722, aircraft retractable landing light

Usage Design:

External

Strength Rating:

30000.0 pounds per square inch tensile

End Play Takeup:

0.021 inches

Material:

Beryllium copper, alloy 25

Material:

Copper alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T252-g
