Cross Sectional Shape:

Round

Inside Diameter:

Between 5.050 inches and 5.080 inches

Casehardening Indicator:

Not casehardened

Outside Diameter:

5.095 inches

Ring Style:

Hooked

Material Diameter:

0.040 inches

Usage Design:

External

Material:

Steel, ams 5112

Material:

Steel comp 1090

Material Specification:

Ams 5112 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
