Shoulder Diameter:

Between 0.246 inches and 0.266 inches

Flange Diameter:

Between 0.740 inches and 0.760 inches

Hole Type:

Unthreaded-counterbored

Flange Thickness:

0.033 inches

Insert Style:

Flush flange

Hole Diameter:

Between 0.246 inches and 0.266 inches

Special Features:

Panel thkns 0.375 nom in. When p/nsls102f25-06 sleeve and this insert are installed

Material:

Aluminum alloy 2024

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type i military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A05400

Mil-std (military Standard):

Mil-a-8625 spec.
