End Application:

2in ball sea vl

Usage Design:

External

Criticality Code Justification:

Zzzy

Material:

Nickel-copper alloy, qq-n-281, class a

Material:

Nickel alloy 400

Material Specification:

Qq-n-281, class a federal specification single material response

Reference Number Differentiating Characteristics:

Quality control iaw navships 0948-045-7010 material identification and control instrucion for level 1 items

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
