Shoulder Diameter:

Between 0.315 inches and 0.317 inches

Flange Diameter:

Between 0.865 inches and 0.885 inches

Material Accommodated Thickness:

0.400 inches

Hole Type:

Threaded-counterbored

Flange Thickness:

Between 0.017 inches and 0.022 inches

Body Diameter:

0.265 inches

Insert Style:

Flush flange

Product Name:

Insert, panel fastener-plug, threaded, self locking

Material:

Iron alloy 660

Material Specification:

Ams5737 national specification single material response or ams5732 national specification single material response

Surface Treatment:

Passivate

Surface Treatment Specification:

Qq-p-35 assn standard 1st treatment response

Thread Size And Series/type Designator:

0.190-32 unf

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A05400
