Inside Diameter:

Between 0.210 inches and 0.215 inches

Casehardening Indicator:

Not casehardened

Major Thickness:

0.030 inches

Usage Design:

External

Special Features:

18 degrees to 22 degrees gap width

Material:

Steel, ams 5678

Material:

Steel comp 631

Material Specification:

Ams 5678 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T252-g
