Head Height:

0.020 inches

Fastener Style:

Tension

Prong Diameter:

Between 0.093 inches and 0.097 inches

Length From Head To Shoulder:

Between 0.040 inches and 0.042 inches

Fastener Shank Length:

0.090 inches

Fastener Outside Diameter:

0.125 inches

Fastenerlength:

Between 0.101 inches and 0.243 inches

Special Features:

Threads 0.86-56 unc-2a on headed end

Material:

Plastic acetal receptacle mechanism

Material Specification:

Astm-d4181-83 assn standard single material response receptacle mechanism

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A05400
