Flange Diameter:

Between 0.831 inches and 0.841 inches

Overall Length:

1.000 inches

Hole Type:

Threaded

Features Provided:

Potting slot or potting hole

Flange Thickness:

0.060 inches

Insert Style:

Protruding flange

Special Features:

Solid film lubricant. Apply on iside of insert only.

Material:

Steel

Material Specification:

66 federal standard single material response

Surface Treatment:

Cadmium and chromate

Surface Treatment Specification:

Qq-p-416, ty2, cl 2 federal specification single treatment response

Thread Size And Series/type Designator:

0.375-24 unjf

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A05400
