Shoulder Diameter:

0.300 inches

Flange Diameter:

Between 0.550 inches and 0.560 inches

Overall Length:

0.250 inches

Hole Type:

Plain

Insert Style:

Protruding flange

Special Features:

length 0.625

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6 federal specification single material response

Surface Treatment:

Anodize barrel

Surface Treatment Specification:

Mil-a-8625 type 1 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A05400

Mil-std (military Standard):

Mil-a-8625 spec.
