Mounting Hole Diameter:

5.84 millimeters

Mounting Hole Type:

Plain

Center To Center Distance Between Mounting Holes Along Length:

3.96 millimeters

Positive Lock Receptacle Style:

Receptacle

Distance From Stud Hole Center To Mounting Hole Center:

1.57 millimeters

Positive Lock Receptacle Height:

5.84 millimeters

Receptacle Material Thickness:

1.57 millimeters

Positive Lock Receptacle Width:

15.85 millimeters

Receptacle Hole Diameter:

2.54 millimeters

Positive Lock Receptacle Length:

18.42 millimeters

Product Name:

Navy special project

Material:

Plastic polyamide barrel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A05400
