Mounting Hole Diameter:

0.047 inches

Neck Diameter:

0.125 inches

Latchlength:

0.609 inches

Neck Length:

0.109 inches

Latchwidth:

0.218 inches

Product Name:

Fastner, snapslide

Special Features:

Latch material: phosphor bronze, spring temper per astm b139/b139m, latch guide material: brass per astm b36/b36m or astm b121/b121m, rivet material: brass per astm b36/b36m or astm b121/b121m, washer material: phosphor bronze, spring per astm b139/b139m

Material:

Copper alloy latch guide

Surface Treatment:

Phosphate washer

Surface Treatment Specification:

Astm b36/b36m or astm b121/b121m assn standard single treatment response latch guide

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A05400
