**Cross Sectional Shape:**

Beveled one inside corner

**Inside Diameter:**

3.302 inches

**Casehardening Indicator:**

Not casehardened

**Outside Diameter:**

3.728 inches

**Minor Thickness:**

0.035 inches

**Major Thickness:**

0.060 inches

**Ring Style:**

Special

**Usage Design:**

External

**Special Features:**

Ring, retaining sump cover 30 deg

**Material:**

Nickel alloy, ams 5699

**Material:**

Nickel alloy x-750

**Material Specification:**

Ams 5699 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T252-g
