Groove Depth:

0.180 inches

Groove Width:

Between 0.025 inches and 0.036 inches

Overall Height:

0.230 inches

Overall Width:

0.140 inches

End Application:

Attack helicopter

Grommet Style:

Edging

Grommet Construction Type:

Split

Product Name:

Grommet, composite, edging

Special Features:

Polymer coated, reel of 100 ft length; finish is fusion bonded epoxy, color lime green per federal standard 595, color no 14533; grommet is primarily intended to provide chafing protection; used for edge dressing, odd-shaped holes, and circular holes to provide the chafing protection

Color:

Green grommet

Material:

Stainless steel insert

Material Specification:

Ams5517 assn standard single material response insert or ams5903 assn standard single material response insert or 5907 assn standard single material response insert or ams5310 assn standard single material response insert

Specification Data:

80205-nas22529 professional/industrial association standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A05400
