**Cross Sectional Shape:**

Beveled one inside corner

**Inside Diameter:**

7.500 inches

**Casehardening Indicator:**

Not casehardened

**Outside Diameter:**

13.000 inches

**Minor Thickness:**

0.450 inches

**Major Thickness:**

0.838 inches

**End Style:**

90 degree parallel

**Ring Style:**

Straight gap

**End Application:**

Bearing system assembly

**Usage Design:**

External

**Product Name:**

Snubber ring, axial

**Material:**

Nickel alloy, ams 5699

**Material:**

Nickel alloy x-750

**Material Specification:**

Ams 5699 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T252-g
