**Cross Sectional Shape:**

Round

**Inside Diameter:**

5.000 millimeters

**Outside Diameter:**

9.000 millimeters

**Major Thickness:**

0.7 millimeters

**Ring Style:**

Angular cap

**Strength Rating:**

3164.0 kilograms per square centimeter tensile

**Special Features:**

Ring is oil dipped

**Material:**

Steel, sae 1065 and steel, sae 1090

**Material:**

Steel comp 1065 and steel comp 1090

**Material Specification:**

Sae 1065 assn standard 1st material response and sae 1090 assn standard 2nd material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T252-g
