Cross Sectional Shape:

Tapered

Inside Diameter:

10.0 millimeters

Casehardening Indicator:

Not casehardened

Minor Thickness:

1.0 millimeters

End Style:

Vertex center or above

Ring Style:

E bowed

End Application:

M249 machine gun

Usage Design:

External

End Play Takeup:

2.1 millimeters

Product Name:

External retaining ring

Material:

Steel comp 1065

Material Specification:

Aisi 1065 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
