End Application:

1520-01-125-5476

Product Name:

Receptacle strip-panel, size 3 1/2

Special Features:

Wire diameter 0.050in material cres.Fs316 cond b per qq-w-423, chemical film class 3 color yellow/gold, -6 indicates number of receptacle holes .242 dia.,

Material:

Aluminum alloy 6061 receptacle

Material Specification:

Sae-ams-qq-a-200/8 assn standard single material response receptacle

Surface Treatment Specification:

Mil-dtl-81706 military specification single treatment response

Specification Data:

81349 - mil-f-25713 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A05400

Mil-std (military Standard):

Mil-dtl-81706 spec.
