Hole Diameter:

1.000 inches

Groove Width:

0.062 inches

Overall Height:

0.437 inches

End Application:

Pu-820/t, generator set, diesel engine

Grommet Style:

Round

Large Flange Outside Diameter:

1.750 inches

Groove Outside Diameter:

1.375 inches

Product Name:

Grommet

Special Features:

Tused to insulate and seal around holes cut into solid panals. They offer vibration dampening and abrasion control. They also resist oil, gasoline, and aromatic hydrocarbons. Hardness is a50 (slightly softer than a tire tread) .

Color:

Black

Material:

Rubber

Material Specification:

35489 no. 23 military specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A05400

Mil-std (military Standard):

spec.
