Cross Sectional Shape:

Round

Ring Style:

Spiral round

End Application:

Door assembly, lcs hangar

Usage Design:

External

Strength Rating:

210000.0 pounds per square inch tensile

Product Name:

Ring, retaining

Special Features:

For diameter 0.375in

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T252-g
