End Application:

Tornado

Product Name:

Quarter turn-pa-3500 line type 3522-s stud assembly

Special Features:

Locking tension: variable, up to 200 lb; rated tensile and shear: 200 lb when used with our receptacles; materials: cup is mild steel. All other components are heat treated carbon steel; finishes: zinc trivalent clear.0003 thick. Trivalent chromate clear with seal (rohs compliant) astm-b-633, type iii, sc2, clear; panel thickness 0.110-0.119 inch, cup dimension 0.130 plus/minus 0.010 inch

Material:

Steel stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A05400
