Cross Sectional Shape:

Round

Outside Diameter:

0.903 inches

Ring Style:

Double leg offset

End Application:

Usm-636 electrical equipment test system

Material Diameter:

0.045 inches

Usage Design:

External

Product Name:

Cable ring

Special Features:

Ring allow attaching the cable assembly to a diameter or radial groove. Can be used with cable sizes 1, 2 and 3. Material: spring steel, black oxide finish.

Material:

Steel

Surface Treatment:

Oxide

Surface Treatment:

Black oxide

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
