End Application:

2355-01-539-3589; light armored vehicle

Product Name:

Hook and loop

Special Features:

Shape: tabs and strips; hook type: standard; nylon material: all-purpose nylon; backing: extra-strong adhesive-backed; adhesive type: rubber; hook thickness: 0.125 inch ; mated thickness: 0.188 inch ; cycle life: 200; shear strength, psi: 13; pull-apart strength: 1; material temperature range: -70 degree to +200 degree fahrenheit; adhesive temperature range: -20 degree to +120 degree fahrenheit; adhesive application temperature range: +68 degree to +75 degree fahrenheit

Fiber Material:

Nylon

Color:

White

Length:

5.000 feet

Width:

2.000 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A45400
