Cross Sectional Shape:

Chamfered outside corners

Inside Diameter:

3.079 inches

Ring Style:

C

End Application:

Beam drive assembly

Usage Design:

External

Special Features:

Shaft diameter 3.250; radial wall 0.237; groove diameter 3.112;

Material:

Steel, corrosion resisting

Material:

Stainless steel

Specification Or Standard:

0.095 thickness

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T252-g
