Cross Sectional Shape:

Split round

Inside Diameter:

0.212 inches

Outside Diameter:

0.292 inches

Major Thickness:

0.040 inches

Ring Style:

Split

End Application:

C130 amp cmb

Product Name:

Standard gauge split ring

Material:

Nickel alloy, ams 5699

Material:

Nickel alloy x-750

Material Specification:

Ams 5699 assn standard single material response

Surface Treatment:

Zinc

Surface Treatment:

Zinc plated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
