Cross Sectional Shape:

Rectangular

Inside Diameter:

1.389 inches

Casehardening Indicator:

Not casehardened

Outside Diameter:

1.990 inches

Minor Thickness:

0.048 inches

Major Thickness:

0.052 inches

Ring Style:

External

End Application:

Level wind as

Usage Design:

External

Material Hardness Rating:

43.0 rockwell c

Strength Rating:

150000.0 pounds per square inch tensile

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
