Overall Length:
3.80 inches
Mounting Hole Diameter:
2.5 inches
Product Name:
Card-lok retainer
Special Features:
Card-lok retainer for cold plate/heat exchanger applications. This totally unique design incorporates design advancements that provide
increased lighter weight; m2.5 x 0.45 tapped hole;
Material:
Steel comp 316 washer
Material Specification:
Astm-b221 military standard 1st material response metallic parts
Surface Treatment:
Passivate washer
Surface Treatment Specification:
Mil-s-5002 military specification 3rd treatment response washer
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
A05400
Mil-std (military Standard):
spec.
