Shoulder Diameter:

11.9 millimeters

Flange Diameter:

17.40 millimeters

Overall Length:

7.92 millimeters

Hole Type:

Threaded or thru-hole

Features Provided:

All metal locking element and potting hole

Body Diameter:

Between 8.00 millimeters and 8.18 millimeters

Insert Style:

Flush flange

Product Name:

Insert, through threaded

Special Features:

Panel thickness: 12.7 mm; hole size: 17.42 to 17.55 mm;

Material:

Steel comp 1018

Material Specification:

Astm a108 international std/spec single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416 type ii class 2 federal specification single treatment response

Thread Size And Series/type Designator:

0.3125 pitch per inch 24, class 3b unjf

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A05400
