Cross Sectional Shape:

Round

Casehardening Indicator:

Casehardened

Outside Diameter:

0.415 inches

Minor Thickness:

0.023 inches

Major Thickness:

0.027 inches

Ring Style:

Internal

Material Diameter:

Between 0.391 inches and 0.403 inches

Gap Opening:

Opening 90 degrees or more

Usage Design:

Internal

Material Hardness Rating:

Between 51.0 rockwell c and 55.0 rockwell c

Strength Rating:

120000.0 pounds per square inch tensile

Material:

Steel

Surface Treatment:

Phosphate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
