Cross Sectional Shape:

Cup

Cross-sectional Height:

Between 0.076 inches and 0.080 inches

Center Hole Diameter:

Between 0.307 inches and 0.317 inches

Peripheral Diameter:

Between 0.751 inches and 0.752 inches

Material:

Aluminum alloy 2017

Material Specification:

Qq-a-225/5 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
