Cross Sectional Shape:

Cup

Cross-sectional Height:

Between 0.072 inches and 0.083 inches

Center Hole Diameter:

Between 0.257 inches and 0.260 inches

Peripheral Diameter:

Between 0.448 inches and 0.458 inches

Angle:

Between 28.0 degrees and 32.0 degrees

Material:

Aluminum alloy

Surface Treatment:

Anodize

Surface Treatment Specification:

Qq-a-696 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
