Cross Sectional Shape:

Rectangular metal

Cross-sectional Thickness:

0.035 inches

Special Features:

Etch and prime 0.007 in. Min, 0.015 in. Maximum thk coating of silastic no. 6535u, bonded on each side

Material:

Rubber synthetic sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
