Cross Sectional Shape:

O-ring

Temperature Rating:

-65.0 degrees fahrenheit and 250.0 degrees fahrenheit

Cross-sectional Height:

Between 0.059 inches and 0.065 inches

Center Hole Diameter:

Between 1.726 inches and 1.750 inches

Material:

Rubber

Material Specification:

142-70 fscm 25184 mfr ref single material response or lf-65 or 7495-65 fscm 07804 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
