Cross Sectional Shape:

Circular

Fabrication Method:

Solid

Nonmetallic Hardness Rating:

60.0 shore durometer a

Min. Tensile Strength (psi):

Not rated

Length:

Any acceptable

Surface Condition:

Smooth

Cross Section Outside Diameter:

0.375 inches

Environmental Protection:

Water resistant

Color:

Any acceptable

Material:

Rubber, synthetic, cured

Material:

Rubber synthetic

Specification Or Standard:

I type and 1 class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
