Cross Sectional Shape:

Cup

Cross-sectional Height:

Between 0.065 inches and 0.071 inches

Center Hole Diameter:

Between 0.554 inches and 0.564 inches

Peripheral Diameter:

Between 0.616 inches and 0.634 inches

Angle:

Between 65.0 degrees and 75.0 degrees

Special Features:

Both ends of id chamfered 70 degrees porm 5

Material:

Plastic polytetrafluoroethylene

Material Specification:

Ams 3651 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
