Cross Sectional Shape:

Rectangular

Fabrication Method:

Solid

Overall Length:

30.000 inches

Attachment Method:

Cemented

Cross-sectional Height:

0.125 inches

Cross-sectional Width:

0.625 inches

Construction:

Solid

Material:

Rubber chloroprene class cr

Material Specification:

Ams 3198 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
