Cross Sectional Shape:

Square

Fabrication Method:

Latticed and solid

Tempurature Rating:

550.0 degrees fahrenheit

Cross-sectional Height:

1.000 inches

Cross-sectional Width:

1.000 inches

Lubrication Material:

Graphite

Material:

Lead and plastic

Material:

Lead and plastic

Specification Or Standard:

B type and 1 class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
