Cross Sectional Shape:

Fibre or composition with wire insert

Hole Diameter:

0.266 inches

Overall Length:

2.625 inches

Overall Width:

2.625 inches

Aperture Diameter:

2.062 inches

Outside Corner Radius:

1.625 inches

Center To Center Distance Between Bolt Holes Along Width:

1.875 inches

Center To Center Distance Between Bolt Holes Along Length:

1.875 inches

Hardness Rating:

80.0 shore durometer a

Material:

Rubber butadiene-acrylonitrile class nbr and cotton and copper alloy or rubber butadiene-acrylonitrile class nbr and plastic polyamide

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
