Cross Sectional Shape:

Cup

Cross-sectional Thickness:

0.0925 inches

Cross-sectional Height:

Between 0.089 inches and 0.090 inches

Center Hole Diameter:

Between 0.630 inches and 0.640 inches

Peripheral Diameter:

Between 1.371 inches and 1.373 inches

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11 t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
