## Cross Sectional Shape:

Circular

**Fabrication Method:** 

Woven lattice and solid

**Cross Section Outside Diameter:** 

0.125 inches

#### Friction Treatment Material:

Graphite

#### Material:

Cork and cotton and plastic

#### Material:

Cork and cotton and plastic

#### Specification Or Standard:

1 class and b part

Shelf Life:

### N/a

Unit Of Measure:

## Demilitarization:

No

---

## Fiig:

A26800
