Cross Sectional Shape:
Circular
Fabrication Method:
Woven lattice and solid
Cross Section Outside Diameter:
0.375 inches
Friction Treatment Material:
Plastic
Lubrication Material:
Graphite
Material:
Cork and cotton and plastic
Material:
Cork and cotton and plastic
Cork and cotton and plastic
Cork and cotton and plastic Specification Or Standard:
Cork and cotton and plastic Specification Or Standard: 1 class and b part
Cork and cotton and plastic Specification Or Standard: 1 class and b part Shelf Life:
Cork and cotton and plastic Specification Or Standard: 1 class and b part Shelf Life: N/a
Cork and cotton and plastic Specification Or Standard: 1 class and b part Shelf Life: N/a Unit Of Measure:
Cork and cotton and plastic Specification Or Standard: 1 class and b part Shelf Life: N/a Unit Of Measure:
Cork and cotton and plastic Specification Or Standard: 1 class and b part Shelf Life: N/a Unit Of Measure: Demilitarization:
Cork and cotton and plastic Specification Or Standard: 1 class and b part Shelf Life: N/a Unit Of Measure: Demilitarization: No
