Cross Sectional Shape:

Circular

Fabrication Method:

Woven lattice and solid

Cross Section Outside Diameter:

0.500 inches

Friction Treatment Material:

Plastic

Lubrication Material:

Graphite

Material:

Cork and cotton and plastic

Material:

Cork and cotton and plastic

Specification Or Standard:

1 class and b part

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
