Cross Sectional Shape:

Oval

Fabrication Method:

Braided

Min. Tensile Strength (psi):

Not rated

Tempurature Rating:

Not rated

Length:

Between 4.438 inches and 4.562 inches

Cross-sectional Height:

Between 0.420 inches and 0.450 inches

Cross-sectional Width:

Between 0.220 inches and 0.235 inches

Lubrication Material:

Oil and graphite

Material:

Asbestos and fiber

Material:

Asbestos and fiber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
