Cross Sectional Shape:

Square

Fabrication Method:

Latticed and solid

Length:

144.000 inches

Cross-sectional Height:

0.125 inches

Cross-sectional Width:

0.125 inches

Lubrication Material:

Graphite

Material:

Foil, metallic and plastic and plastic

Material:

Plastic and plastic

Specification Or Standard:

1 class and c type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
