Cross Sectional Shape:

Square

Fabrication Method:

Latticed and solid

Cross-sectional Height:

0.250 inches

Cross-sectional Width:

0.250 inches

Lubrication Material:

Graphite

Material:

Foil, metallic and lead and plastic

Material:

Lead and plastic

Specification Or Standard:

1 class and c type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
