Cross Sectional Shape:

Circular

Fabrication Method:

Braided

Min. Tensile Strength (psi):

Not rated

Tempurature Rating:

Not rated

Length:

Between 4.688 inches and 4.750 inches

Cross Section Outside Diameter:

0.305 inches

Lubrication Material:

Graphite

Material:

Asbestos and fiber, jute

Material:

Asbestos and jute

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
